“Cycling de OHENRO”

A free bicycle drop-off system

Visitors can

- be free to borrow a bicycle and drop it off at another station
- combine the good points of other transportations such as bus, train and on foot

## Conclusion

Ehime has potentially rich tourism resources in each area like Uwajima city. Our plan will lighten up and help introduce such local attractions to the world. That's the best attractive point of “Cycling de OHENRO”.
