

**Topic**

- 80% of the garbage is water.
- It needs **extra energy** when garbage burns at incinerator.
- The extra energy has bad effect on environment.

**Experiment****Result**

511g

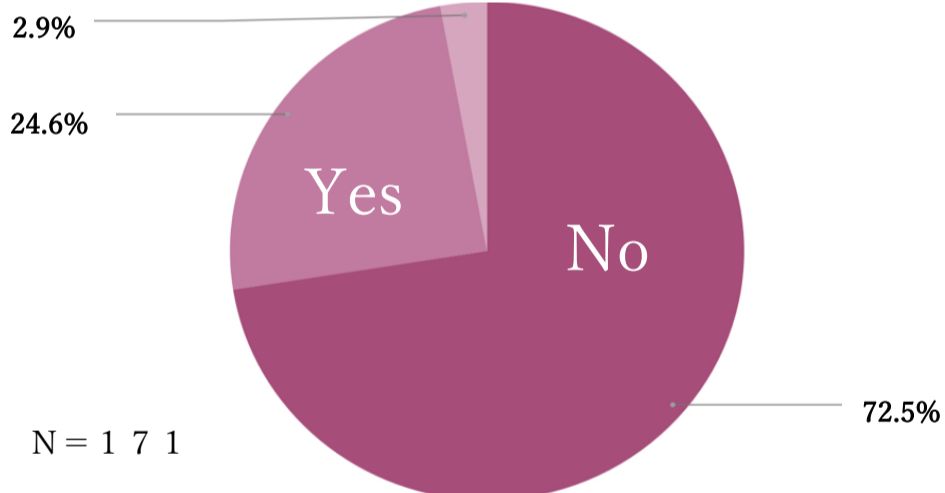

↓ -93%

35g

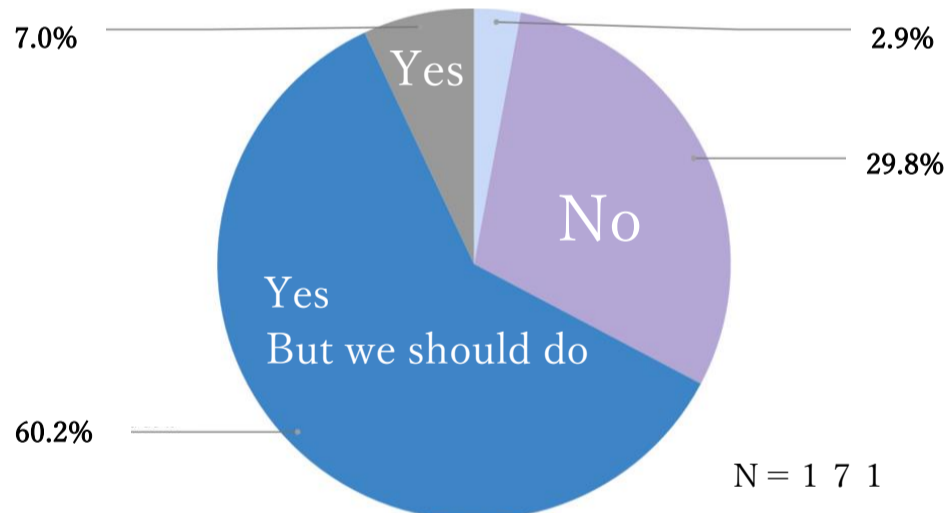

**Survey**

(to junior high school students and their parents in chiba 5.8.2019)

Do you do anything unique to dispose of garbage?

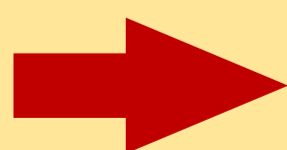

Do you think removing moisture of garbage is troublesome?

**Make a leaflet!!**

Including some information of drying garbage

Research the food which has a large amount of moisture

**Share it in local communities****Reference**<http://morinooto.jp/2014/06/25/watermelon>
