

Co-development with Vietnam

Southeast Asia

Japan

Energy felt in South East Asia

Too Rapid an Economic Growth

Experience and lesson

*60's and now in Japan

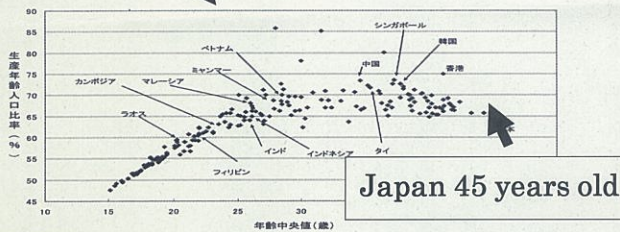

- × Lack of Infrastructure
- × Severe Pollution Problems

- Experiences as a developed country
- Solving pollution problems → 20 years to solve them △

Not to repeat the same mistakes and gain the benefits together

Notion of population bonus

Vietnam 28 years old

(注) 2010年時点 (出所) United Nations, World Population Prospects: The 2012 Revision より大和総研作成

Lessons we learned

Delay in Antipollution Measures

1950s **Citizens** campaign

1955 "measures" to Diet.

1967 "Pollution Prevention Act"

1970 "Pollution Offence Law"

"Air Pollution Control Law"

Companies ⇒ Pollution Control

Cost for Prevention

Much lower

Japan's responsibility

On the other hand...

Economy > Pollution

Yes, we can...

Via Asian countries
Internet technology
Eliminates our limit
To talk and share a
Number of issues
Among each other,
Maps of the future are in our own hands!!
