

# For prevention of Child Labor

2628 Kofu daiichi high school Kitahara Rian

Nowadays one in nine children are forced into child labor on Earth. Child labor is preventing children from receiving proper education.

There is a Non-governmental Organization called ACE which is trying to abolish this. So I am planning to make our own ACE in Yamanashi. I want to find what way is better to promote the activity like ACE in some regions.

To reach the goal, I'm going to take my first step in my hometown, Yamanashi and I will appeal to other regions to use the efforts.
