

## Air pollution → one of the biggest killers

### History of Yokkaichi Pollution

**Economical  
Development?**

*Which would you choose?*

**Human  
Health?**

Reconstruction of the city

*(photo: smoke from a stack containing harmful matters)*

People tortured by asthma

*(photo: people receiving treatment)*

The victory at trial

*(photo: the meeting to inform it to local people)*

After the suit

<Companies>

Taller stacks and less sulfurous fuel

<Administration>

More strict regulations

ICETT

*(International Center for Environmental  
Technology Transfer)*

*(photo: today's petrochemical complexes)*

Coexistence with nature

### Conclusion

G7 Junior  
Summit

Japan-America  
Student Conference

We realized **the importance of  
person-to-person dialogue  
between youths from the world**
