

# EDUCATION FOR ADULTS

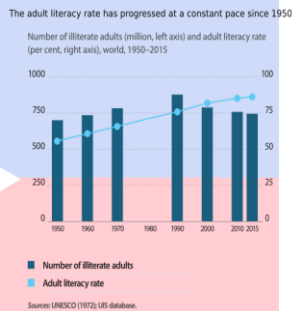

## ~ The Solution to Poverty ~

2713 Aoyama Gakuin Senior High School

### The Philippines

literacy rate 98%

- Education system in public schools is reliable
- Huge economic gap between families
- Lack of knowledge in agriculture

#### NGO

- ChildFund Japan
- Cabatuan Immanuel Multi-Purpose Cooperative
  - Micro funding
  - Reducing economic gap between people

#### What we are doing

- Our school is currently supporting 3 children
- Held workshops during Global Week in school
- Connect with sponsored children through letters

### East Timor

literacy rate 64%

- Lack of school supplies
- Unskilled teachers
- Unable to calculate
- Insufficient knowledge about finance which causes unfair trades

#### NGO

- CARE International : 
  - Production and distribution of textbooks in Tetun (language spoken in East Timor)
- Peace Winds Japan : 
  - Supporting coffee farmers <teach knowledge about farming, buy coffee beans at a fair prices>

#### What we are doing

- Sell coffee beans and donate money to the NGO
- Serve Timorese coffee at school

Seems to be different BUT the aim is the same

**AIM : To make the community independent**

#### Education for adults

- Finance : Stop wasting money, stop unfair trades
- Health : Improve hygiene
- Agriculture : Increase income
- Family: Better relationship with children

#### What we can do : Raise awareness

**Include time to do some research and think about the importance of such education in classes.** Students should imagine how their lives would be without having basic information that developing people do not have in developing countries. Raising awareness → expand education for adults in developing communities.
