

## CURRENT STATUS

The amount of food produced in the world today is enough to feed the whole population.

Contradiction  
 $\neq$   
 1/3 of the food that is produced every year (= one billion tons) is being thrown away

1 in 9 people are living in starvation

### ▷ Onigiri Action 2017

"sharable"

By sharing photos of onigiri, meals will be sent to the children in developing Asian/African countries

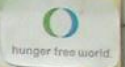

THINK!

If sharing photos of food can make a difference, are there ways to donate the actual food we waste to the

### ▷ Collecting postcards

Postcards that will have been disposed

Decrease the amount of waste and help the

How can we solve this problem?
